General Overview

Finding Skilled IT Professionals to Meet Your Technology Needs

Oakton People's network of recruiters, will find you the contract and permanent technology professionals you need to help your business excel.

We simplify your hiring process by:

- Providing access to our extensive database of candidates
- Finding technology specialists who meet your specific needs
- Handling the recruiting and hiring process for you
- Performing volume searches to fill many positions quickly

Oakton People is a member of the *Victorian Government Panel for the Provision of Temporary and Permanent Information Systems and Technology Personnel*, due to its specialist expertise in identifying and providing people with Oracle, Microsoft and Lotus Notes technology skills.

Technology can help businesses drive top-line revenue and increase profitability. But to build world-class digital products and software applications, you need top-tier technical talent.

Let Oakton People's expert recruiters quickly find the talented technology professionals you need.

Contract Consultants and Permanent Employees

Oakton People's IT Resourcing team is focused on matching organisations with the most qualified IT staff for contract and permanent positions.

With a highly experienced staff of technical recruiters and an extensive database of candidates, Oakton People is dedicated to finding the best technical talent for you. Most of our candidates are either selectively recruited by us, referred to us by individuals we have placed, or contact us based on our excellent reputation.

Our recruiting experts understand the intricacies of a correct match, and make sure each candidate fits your needs, expectations and company culture.

And, because we build highly transactional Internet applications ourselves, we have the expertise to technically screen our candidates for you. We'll check references, handle negotiations and monitor consultants to ensure your satisfaction.

Empowering Your Enterprise

The Oakton group has been designing, building and maintaining custom enterprise applications, plus evaluating and implementing enterprise software packages, since 1988.

We specialise in finding and recruiting talented professionals in the following areas:

- **Packaged Enterprise Systems**
(Oracle, PeopleSoft, SAP, Siebel, E.piphany)
- **Analysts and Managers**
(Business analysts, Data analysts, Systems analysts, Project managers, Technical architects etc.)
- **Windows, Web and Database developers**
(VisualBasic, Java, C++, PL/SQL, TransactSQL, Domino, XML, DHTML, SOAP etc.)
- **Database Administrators**
(Oracle, MS SQL Server, Informix, Sybase, DB2, Lotus Notes etc.)
- **Networking & Communications**
- **LAN/PC Support and Computer Operators**
(Windows NT/2000, Novell etc.)

A Fresh Approach

An aspect of Oakton People's approach that is fundamental to its business model is specialisation. The company does not provide a one-stop shop within recruitment and human resources. Rather, Oakton People focuses on the meeting the demand for skilled IT, Internet and e-business professionals in two ways:

- **Contracting/Temporary** – Finding people for temporary roles for periods as short as 1-2 days, through to placing senior contractors for periods of a year or more
- **Permanent** – matching skills, personalities, attitudes, culture and work ethics

People Solutions

- **Multi-functional, multi-discipline teams**
- **Project Management**
- **Human Resource consulting**
- **Contract/Temporary IT people**
- **Permanent recruitment of IT professionals**
